

COMPANY PRESENTATION

Maurizio Bonati

- ❖ ORIGINALLY FOUNDED IN 1968 PRIVATELY OWNED
- ❖ 90 EMPLOYEES WORLDWIDE
- **❖** 3 MANUFACTURING LOCATIONS IN ITALY
- ❖ GLOBAL FOORPRINT WITH DIRECT SALES AND SERVICE AND STOCK OF SPARE PARTS IN; USA, ASIA AND EUROPE
- ❖ > 3,000 WORKING SYSTEMS INSTALLED WORLDWIDE
- **❖** EXPORT 90% OF TOTAL SALES
- ❖ ISO9001 VISION CERTIFIED

PLURITEC'S SPECIALIZED DIVISIONS FOR PCB MANUFACTURING

DRILLING | ROUTING | X-RAY | AUTOMATION

Mechanical drilling and routing | X-ray tooling holes optimizer | X-Ray measuring machines and final quality check | Automation systems for panel handling | PCBA Routing | Metal Credit card manufacturing solutions

WET PROCESSING | SURFACE PREPARATION | FINISHING | RESIST LINES

Brushing | Jet scrubbing | Micro etching | Developing | Etching | Stripping | Washing | Drying | Automation | Panel handling | Buffers | Metal etching | Glass

SPRAY COATING | PRE AND FINAL CURE OVENS

Spray coating systems | Oven for pre and final cure |
Automation | Loading unloading devices

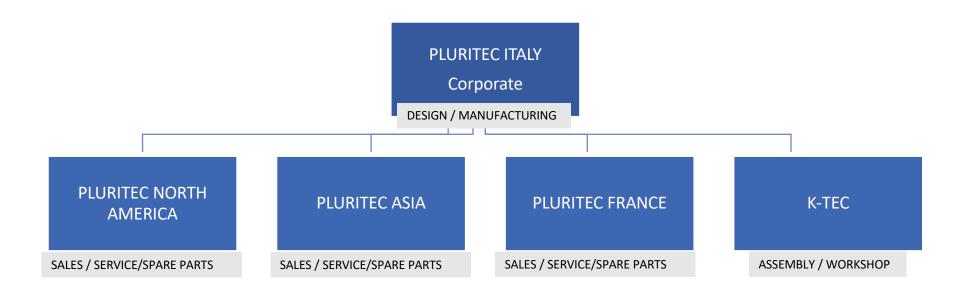

VIA CANDOSSINO 6 -BUROLO (TO) – ITALY 3,500 mq / 38,000 sq/f Mechanical machines VIA BREDA 38 - BUROLO (TO) – ITALY 2,000 mq / 21,000 sq/f Wet / Processing line VIA MORENA 4 - GOZZANO (NO) - ITALY 2,500 mq / 27,000 sq/f Spray / parts workshop

BUFFER BELT

BUFFER 20/40/80

SPRAY COATING AND OVENS

INSPECTA S1-TWIN

INSPECTA SX

X-MEASURE

X-VISION

Model: INSPECTA COMBO | Driller | Router | Real time X-Ray targets detection

Multiple machines in one -X-Ray optimizer | Drilling | Routing | Quality control | Measuring | Multiple patterns optimization |Complete data analysis software | Traceability Available with:

- ☐ Additional CCD Camera for vision drilling and routing
- ☐ Depth controlled drilling/routing
- ☐ Surface mapping, back drilling, pocket routing
- □ Panel code marker Code reading (inner |outer layers)

Model: INSPECTA S1 | X-Ray Optimizer for multiple

X-Ray optimizer | Quality control | Measuring | Multiple patterns optimization
Complete data analysis software | Traceability | 2D code reading | panel marking
Dedicated registration for individual areas - Fexible configuration — Large working area
Available with:

- ☐ Back unloader Left to right loading unloading with trolley
- □ Panel code marker Code reading (inner |outer layers)

Model: INSPECTA SX | X-Ray Optimizer for tooling holes

X-Ray optimizer |inspection|Measuring Complete data analysis software | Traceability | 2D code reading |Panel marking Available with:

- Anthropomorphic robot for automatic panel loading unloading
- ☐ X-Ray pre-alignment system for panels with flash
- ☐ Dedicated in line marking station for improved output
- □ Back unloader Left to right loading unloading with trolley
- □ Panel code marker Code reading (inner |outer layers)

Model: X-MEASURE | X-Ray Coordinate Measuring machine

X-Ray inspection |quality control | measuring | Complete data analysis software | traceability | 2D code reading |panel marking Available with:

- ☐ Dedicated in line marking station for improved output
- □ Back unloader Left to right loading unloading with trolley
- □ Panel code marker Code reading (inner |outer layers)

Model: X-VISION | X-Ray quality control machine

X-Ray inspection |quality control | measuring | Complete data analysis software | traceability | 2D code reading |panel marking

☐ Manual Xray viewing system

PLURITEC X-RAY SYSTEMS

MULTISTATION EVO

C1 / C2 /C3

D2 / D2iX

D6 / D6iX

Model: MULTISTATION EVO | Micro Drilling | Precision Routing

- □ **1 station** Single head 1 spindle Driller or Router
- ☐ 1 Station Single head 2 spindles Drill and Rout Spindles
- ☐ Multi station integration for up to 8 Cells per block
- ☐ 18 Slot Automation at 24x30" Panels
- ☐ XL Extended Table offers 24.8x36" flexibility

Model: C | Micro Drilling | **Precision Routing**

- ☐ 1-2-3 stations Flexible configuration with large format
- ☐ 1 Spindle large format 32" x 55" Panels
- □ 2 Spindle (digital link) offer 2 EA 25" x 30" (unlinked) 31" x
- 2 Spindle Automated offers 2 EA 25" x 30 with 36 Available loading slots
- □ 3 Spindle offers 3 EA 18" x 24" (Hardware Link Z)

Model: D2 - D2ix | Micro **Drilling | Precision Routing** 2 stations - D2ix with dedicated vision registration for each station

- □ 200K Spindles, 210 tools and FULL independent XY&Z movement
- Independent Alignment and scaling
- 2D/Bar code reader
- Automatic panel loading unloading
- ☐ Max panel size 22.4x 27.0"

Model: D6 - D6ix | Micro **Drilling | Precision Routing** 6 stations – D6ix with dedicated vision registration for each station

- □ 200K Spindles, 210 tools and FULL independent XY&Z movement
- □ CCD Camera at each spindle for □ CCD Camera at each spindle for Independent Alignment and scaling
 - □ 2D/Bar code reader
 - Automatic panel loading unloading
 - ☐ Max panel size 22.4» x 27»

MECHANICAL DRILLING ROUTING

LOADING UNLOADING SYSTEM

SINGLE | DOUBLE 18 POSITIONS PANEL LOADING UNLOADING

ROBOT LOADER | UNLOADER

IN LINE LOADING BUFFER

AUTOMATION

X-RAY DRILLING | ROUTING UP TO 50X118"

LARGE FORMATS
