Q4 Are there any specific types of events or offerings that you would like to see more of in your area of expertise?

- Create work groups for interested engineers/technicians to discuss and work on these topics
 - Best practices, Industry “standards”
 - Design rules
- Improve the quality of the events
- More studies and testing on materials
- More company tours to etchers
- Regeneration of waste etchants

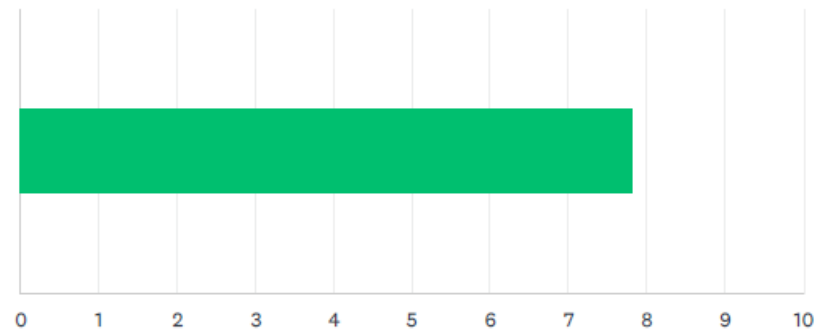

Q4 Are there any specific types of events or offerings that you would like to see more of in your area of expertise?

- More and in depth on new developments in process, automation, regeneration, wastewater treatment. More insight in competing/adjacent technologies.
- The change from “family” ownership to more structured “Business” oriented medium size companies make the events less of interest.
- Methods and means of addressing industry concerns about water usage and hazardous waste generation.
- More independent research appearances in conferences and webinars
